

Cleanroom Control ILMAC 2019

**CLEANROOM
CONTROL**

Do cleanrooms and contamination control form part of your business?

We are giving space to this important topic at ILMAC 2019 and putting the spotlight on controlled environmental cleanliness for research, development and production.

Cleanroom Control is a special exhibition and a meeting point at one and the same time, creating an informal and friendly atmosphere conducive to good contacts and business. Cleanroom Control is being run in cooperation with the specialist journal, Contamination Control Report.

Your benefits

- You benefit from an unbeatable price to performance ratio for your stand package.
- Cleanroom Control is the point where interested professional visitors will specifically look for you and your solutions.
- You are able to address your target audience here without any scatter loss.
- You can boost the profile of your company, your product and your consulting.
- We leave you free to focus on the essentials on your low-cost stand area (4, 6 or 12m²).
- In the Cleanroom Control section, visitors and exhibitors meet up for technical discussions, to find out about their customers' requirements and to discuss potential solutions.

Example of a 4/6 m² stand

Example of a 12 m² stand

Your stand

Your stand in the Cleanroom Control communal zone is ready for you, including furnishings, for as little as CHF 2990.–/4m² (where available), CHF 3990.–/6 m² or CHF 7980.– / 12 m².

The stands are of a fixed design, including fittings and furnishings. Three sizes are available to choose from.
